

Building a Future Empowering Potential Giving Hope

“My case manager helped to motivate me and to graduate from a Certified Nursing Program really fast and now I am making great money. If you keep working at it, it will happen. I did this when I was six months pregnant. With my good paying job I am planning on buying a house and I already live on my own next to family and friends.”

Rita Ramos

It has given them a place to go for emotional, spiritual, educational, and employment support. When I saw them here today, I knew they were doing great. The JP gave them a sound foundation where they belong. New experiences and a place to go and hang out.
